

**Graham Martin**  
**Chairman and CEO, EnOcean Alliance**

Graham is a veteran in the electronics industry with 35 years experience in analogue and radio solutions at various engineering, sales and marketing positions in USA, GB, Germany, Austria and Norway. Before joining EnOcean to form the EnOcean Alliance (a non-profit organization promoting energy harvesting based solutions for sustainable buildings) he was a worldwide pioneer in low power wireless sensor networks at leading start-up Chipcon (purchased 2006 by Texas Instruments) where he conducted the worldwide business development activities, served as President of Figure8Wireless and was Vice Chairman of the ZigBee Alliance.

Graham studied in USA and GB and is a Physics Graduate from the University of Edinburgh, Scotland.
